CEAS PROJECT

Completed

A Collaborative Tutoring Initiative by CES and CEAS for Underprivileged Students

- **Description**

Through the collaborative efforts of CES and CEAS, we have successfully implemented a tutoring program to provide academic support to underprivileged students in the community. This program is further enhanced by the active participation of volunteer students and teachers from CES and CEAS, who offer assistance in a wide range of subjects, thereby contributing to the improvement of student's academic performance.

Nurturing Literacy: Empowering Minds Through Books and Stories

- **Description**

Our organization initiates a literacy drive by collecting books and coordinating reading sessions for children in underserved areas. In addition, dedicated student, and teacher volunteers from CES and CEAS visit local libraries or community centers to engage in storytelling activities, fostering a passion for reading and bolstering literacy rates.

CITEC PROJECTS

Completed

Empowering Digital Literacy: Workshops for Bridging the Technology Gap

- **Description**

The main objective of this project is to provide education and empowerment to individuals with limited technology access through the organization of workshops focused on fundamental computer skills, internet usage, and digital tools. Additionally, by participating in these workshops, individuals acquire essential skills for effective navigation in the digital world.

Ongoing

Engineering Education Outreach Program

- **Description**

CENAR Teachers and Volunteer Students organize engineering education outreach programs targeting local schools and community centers. They design hands-on activities, workshops, and demonstrations to spark interest in engineering and inspire the next generation of engineers, promoting STEM education and career pathways.

CBAA PROJECTS

Completed

Empowerment through Skill Development: Enhancing Employability and Personal Growth in the Community

- **Description**

Our organization aims to empower community members by conducting skill development workshops that provide practical skills for employment and personal growth. These workshops cover a range of topics, including computer literacy, communication skills, entrepreneurship, financial management, and job interview preparation. By equipping individuals with these valuable skills, our program strives to enhance their employability and foster self-sufficiency.

Ongoing

Career Counseling and Guidance

- **Description**

Our organization plans to offer career counseling and guidance sessions for high school students in the community. Furthermore, these sessions will feature experts from various fields who will share their experiences and provide valuable advice on different career paths. The goal is to assist students in making well-informed decisions about their future and selecting suitable career options.
